

NOTICE

PHASE A PUBLIC-USE RESTRICTIONS On the Wallowa-Whitman National Forest (Oregon State only) Beginning July 26, 2019 until further notice

Use of Chainsaws: Chainsaws may be operated only between the hours of 8 p.m. and 1 p.m. local time. A one hour fire watch is required after saw operations cease. Saw operators are required to have an axe (minimum 2 lb head, 26" length), shovel (8" wide, 26" length), and fire extinguisher (minimum ABC 8 oz) in their possession.

Traveling off Developed Forest Roads and Trails is Not Allowed, except for the purpose of going to and from a campsite located within 300 feet of the open developed road. All motorized travel on roads closed by gates, barricades, berms, rocks, or logs is prohibited.

No Smoking, except within an enclosed vehicle or building, developed recreation site or while stopped in an area at least three feet in diameter that is barren or cleared of all flammable material.

To reduce the risk of escaped fires the following are required for campfires, charcoal briquette fires, wood stoves, portable cook stoves, portable fire pits, and gas stoves:

Campfires and charcoal briquette fires are required to be contained in an earthen pit, metal fire ring, or rock ring, with all combustible material removed within a 3-foot radius of the perimeter of the fire ring, and it must be clear of overhanging material. Wood burning stoves must be equipped with a chimney at least 5 feet in length with a spark arresting screen consisting of ¼ inch mesh hardware cloth. All combustible material must be removed within a 5-foot radius of the perimeter of the stove.

Portable cooking stoves or portable fire pits that use liquefied or bottled gas as fuel must have all combustible material removed within a 5-foot radius of the perimeter of the stove.

In all cases with all types of fires, a shovel, and one gallon of water is required to be present at all times, except in designated Wilderness Areas (Eagle Cap Wilderness, Hells Canyon Wilderness, Monument Rock Wilderness, North Fork John Day Wilderness) and the following developed recreation sites on the Wallowa-Whitman National Forest: Anthony Lakes Campground and Picnic Area, Union Creek Campground & Picnic Area, and Fish Lake Campground.

With tinder dry forest fuels and high daytime temperatures, conditions are prime for potential human-caused forest fires. We ask that you be extremely careful when out on the forest.

For more information on public-use restrictions, contact your local Forest Service office, visit our websites; <http://bmidc.org/restrictions.shtml> or www.fs.usda.gov/wallowa-whitman
